Track Gas And Fuel Mileage For Vehicles Excel Spreadsheet Crack + Free Download

This is a simple app that allows you to track fuel mileage for your vehicle. From main page, you can choose from eight different tabs to select your vehicle. There are two tabs: mileage tab and fuel tab. Mileage tab: In mileage tab, you can see the mileage of your car. You can also find out how many miles are left and how many miles you have already driven. Fuel tab: If you wish to find out how much gas you are using, you can simply click the fuel tab. There you will see how much gas you have left and how much you are using. You can enter the gas station data manually to get fuel usage information. This feature will be helpful if you are traveling or if you are on a long road trip. When I update the app, I hope that this app will be useful for you. if you need more features, please let me know All the best! Note: -You can choose from 8 different tabs -Mileage tab can show the miles left and mileage driven -Fuel tab can show how much gas is left in your tank My source: License: Detailed Item Information Item Information Title: Track Gas and Fuel Mileage for Vehicles Excel Spreadsheet Description: This is a simple app that allows you to track fuel mileage for your vehicle.
